SOURCE

On 30 April 1951, the former ammunition depot at Falkenhagen (N 53/V 44) was occupied by about 500 troops, about half of whom wore red epaulets and the other half black epaulets. The underground bunker and new AAA towers were not occupied. The work on the depot building was completed. The upper floor was to be used as quarters and the ground floor was for storage. German laborers were no longer seen in the depot area. Trucks seen at the ammunition depot from 22 to 30 April A

25X1A

25X1A Comment. The AAA towers which are mentioned for the first time, vaguely confirm the previous impression that the bunker may have been converted into a command post of a high-echelon headquarters. See Annex for location of buildings. In other respects, the information does not differ from previous reports.

1 Annex: 1 sketch on ditto.
